

# Explore RESIDENTIAL CONSTRUCTION CAREERS

This is your chance to go beyond the classroom and discover what a career in residential construction looks like, straight from the experts.

## Event Highlights:

### Industry Insider Panel

Hear from a dynamic panel of professionals, such as contractors, electricians, HVAC techs, framers, and more! Learn about their career paths, day-to-day work, and how to get started in the trades.

### Breakout Sessions with the Experts

Rotate through small group Q&As with contractors to dive deeper into different roles in the industry. Ask questions, explore tools of the trade, and get real insights.

### Live Residential Build Site Tour

Take a guided tour of an active residential build site! See real construction in action, explore different phases of home building, and talk with skilled professionals working in the field.
