# Fluentalk T1 Handheld Translator

Translate Anytime, Anywhere

\*Fluentalk is a handheld translator sub-brand of Timekettle

## Stay Connected With T1 - Always

Fluentalk T1 is another masterpiece designed and developed by Timekettle with our latest translation technology, supporting online and offline voice translation, and Photo Translation. No matter where you are, T1 is your best companion for accurate translation, so you are always connected with others.

## Free and Stable Mobile Data - Globally

T1 provides up to 2 years of free mobile data with connections to more than 200 wireless network operators worldwide. Our built-in antennas are professionally modulated for a full-band and strong connection anywhere in the world.

## 0.2s Ultra Low Latency - Faster Than Ever

Integrated with Timekettle industry-leading Streaming ASR Technology and the support of more than 150 servers and accelerators all over the world, T1 can immediately translate any speeches as it picks up like you are reading subtitles.

## Instant Photo Translation - Snap And Read

T1 integrates an industry-leading OCR offline translation engine and an 8-megapixel rear camera for instant Photo Translation in 28 languages. Take a photo, and you get it.

\*More languages will be added over time.

## 95% High Translation Accuracy

The T1 is built with an multi-microphone array supported by EDC noise reduction algorithm that accurately picks up human voice from noisy environment, combined with Timekettle UniSmart AITP, T1 is tested and proven to offer an accuracy level of up to 95% in your translations.

## Support 40 Languages and 93 Accents

English	Japanese	Hindi	Romanian	Turkish
French	Korean	Croatian	Bulgarian	Vietnamese
Spanish	Catalan	Hungarian	Slovak	Icelandic
Portuguese	Czech	Indonesian	Slovenian	Ukrainian
Arabic	Danish	Malay	Swedish	Urdu
Chinese	Finnish	Dutch	Tamil	Filipino
German	Greek	Norwegian	Telugu	Russian
Italian	Hebrew	Polish	Thai	Cantonese

\* Constant updates for more languages and new features.

## Downloadable Offline Translation in 13 Languages

T1 supports offline voice translation in 13 languages when wireless networks become unavailable. And it can intelligently switch from online translation to offline translation when the wireless network turns weak.

## 3 Translation Modes

### Ask for Directions

Set up your customizable greetings and questions so you can play them instantly whenever in need.

### Chat Mode

T1 can automatically pick up the speeches in a conversation and translate them to your language.

### Talk Side-By-Side

Switch your screen horizontally with one click, and have your joyful conversation side-by-side.

## Fit Right In Your Pocket

Fluentalk T1 is only about the size of a credit card and weighs merely 115g.

## 4" Ultra-Clear HD Screen

T1 is built with a 4-inch large touchscreen twice as big as conventional handheld translators for an ultra-clear resolution of 540\*1080P.
