T1 Mini

Your Ultimate Travel Translator

*Fluentalk is a handheld translator sub-brand of Timekettle

Your Ultimate Travel Translator

T1 mini is highly responsive in critical communication scenarios, swiftly confirming vital information and addressing emergencies. It is particularly advantageous in areas where language barriers can hinder effective communication, such as regions with limited international language proficiency. Travel with complete peace of mind with T1 mini, your trustworthy partner that ensures you always have access to assistance when you need it.

One-Button Translation

With a single click, our device can be effortlessly utilized, allowing you to get started in no time. You will no longer have to struggle with outdated translation apps. With a quick start-up time, T1 mini is always ready to go, ensuring you have access to high-quality translations whenever you need them.

1 Year of Free Global Data

With T1 mini, you can enjoy independent communication and free global data roaming for an entire year, thanks to the built-in data card. No longer will you need to purchase additional data or insert SIM cards while traveling, even in remote or popular tourist destinations. With a standby time of 7 days, your personal assistant is always ready at your fingertips for any occasion, eliminating the need to search for free Wi-Fi.

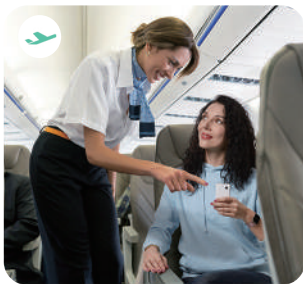

36 Languages with 88 Accents

With online support for 36 languages and 88 accents, T1 mini covers most countries and regions, granting you the freedom to enjoy a seamless travel experience that transcends language barriers.

13 Language Pairs Offline

With support for 13 language pairs offline, T1 mini offers seamless communication in those special situations when you're without internet, such as on a flight. Simply swipe left and switch to offline translation mode in a snap, and never let poor network conditions hinder your travel experience again.

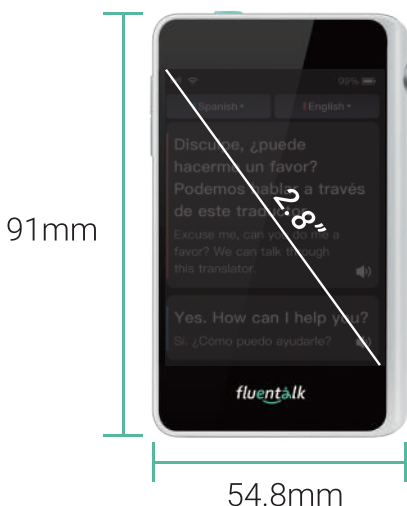

39 Languages for Photo Translation

With an impressive 39-language translation capability through a simple photo, T1 mini outshines 80% of the competition. Its powerful 5-megapixel rear camera enables you to capture menus and signposts you can't understand, and receive instant translations.

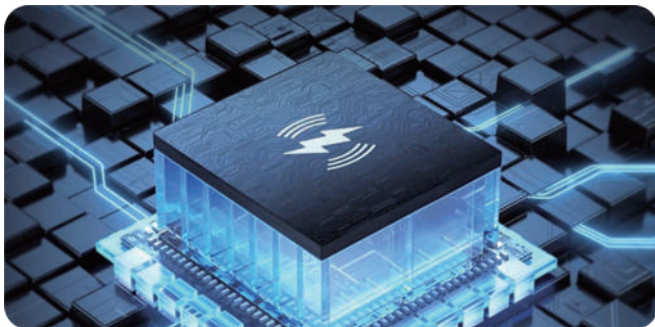

Visa Card Size with 2.8" HD Screen

Travel light! Crafted for the modern-day adventurer, T1 Mini weighs only 80g and has a Visa card size, making it a breeze to carry on all your journeys. The device has a 2.8-inch screen with a high screen-to-body ratio, guaranteeing clear character display. Additionally, with enlarged font and volume, it provides clear and seamless translations on every use, even in noisy outdoor environments.

Rapid Translation

Built on the foundation of Fluentalk's cutting-edge speech processing technology, T1 mini is capable of real-time translation while recognizing audio sources. It surpasses the most top-of-the-line models in the industry with its quick reaction time.

*Please note that translation accuracy may vary depending on the network environment in which the device is used.

Up to 95% Accuracy

T1 mini has dual microphones with ENC noise-cancellation for precise audio source recognition. It's powered by Fluentalk's translation engine, accurately translating multiple languages at over 95% accuracy. It's your go-to travel companion for hotel check-ins, reservations, and other travel necessities.
